## Mission

The mission of LAL METAL FORGE is to achieve the Total Customer Satisfaction by supplying the highest quality forgings and services possible at the earliest. Appropriate time delivering values to customers by ensuring that their needs in terms of product quality, committed delivery, fair price and new product development are always met.

CHAIRMAN'S

## *Message*

It is with a touch of pride that I look back at the years gone by, where endeavour and commitment marked every achievement. The going was, at times, not all that easy, but the entire team emerged much the better and stronger, very much like the strength of steel after it passes through the fires of the forge.

Since the commencement of operations, we have achieved much. Yet the future lies ahead. Globalization must inspire us towards world class production. Commitment and quality management must serve as benchmarks at every stage of manufacture. Manufacturing testing and validation ensures the highest standards of production. The Company today has a reputation of financial stability and the future lies ahead

We look forward to expansion and a future of steady and continuous growth. To linear thinking with integrated expansion.

Ratan Lal Agrawal

## Vision

LAL METAL FORGE always practices continuous improvement for the benefit of all customers, team members and suppliers. We seek to grow in expertise and technological capabilities while maintaining flexibility to change; thus meeting changing needs and expectations. The Company's goal is to meet the needs of its customers by providing high quality, low cost forgings, utilizing its range of forging equipment, combining that with high calibre technical expertise.

COMPANY

## Profile

We take this opportunity to introduce ourselves as one of the leading manufacturers and suppliers of Open and Close Die Forged Components for pipe fittings, power plants, chemical plants, refineries, oil filtering equipment and other industrial applications.

Our capacity of producing forgings ranges from 0.500 kg. to 80 kgs. in Close Die Forgings with a production range of OD size up to 500 mm. In Open Forgings, our production range is up to 500 mm OD x 4000 mm length. We are capable of forging Stepped Shafts, Flange Shafts, Plain Shafts and producing Rings type forgings of sizes up to a dia of 2000 mm. In all, we have a production capability of forging a single piece of 4000 kg. Currently, the Company is producing forgings of Mild Steel, Stainless Steel and Alloy Steel. Our skilled and experienced work force together with the highly professional environment has been instrumental with our R&D for more than 20 new jobs to date along with our sister concern, Lal Forgings (P) Ltd. an ISO 9001:2000 Certified Company. We are also registered with EIL, Ahmednagar and are regularly supplying flanges.

We are an ISO 9001 : 2008 certified company and are committed to satisfy our customers through quality products. We have adopted a quality policy and also have the requisite equipments/sources to test quality from the very first stage to the final stage. We have a fully equipped Physical Lab (calibrated and witnessed by Lloyd's Registered Asia) ; Chemical Test Laboratory and an Annealing Furnace with a 5 tonne capacity.

Some of our specialized products are Pipe Fittings and Flanges (from 1/2" to 48" WNR, SORF & BLRF), Forged Rings, Shafts, Gears, Hubs, Rounds, Flats, Squires and Components for Air Suspension Systems used in railway coaches and couplings. We have an extremely large list of components forged for BHEL, Bhopal.

# Quality Control & Assurance

Quality is the core of our business philosophy. We follow a Total Quality Management System (TQM) that streamlines all the procedures and practices in compliance with International standards. Our quality assurance includes checking of raw material, in-process control and testing of the products on various parameters. Prior to delivery, every batch of product is thoroughly inspected to make sure that they comply with client's specifications.

We leave no stone unturned in order to achieve highest standard of quality. Our company has successfully under taken jobs under world renowned third party inspection agencies such as:

- EIL
- Bureau Veritas
- Det Narske Veritas
- TUV
- PDIL
- SGS
- GLI

Moreover, continuous efforts are being made for improvement of materials, technology and equipments to deliver optimum quality products at the most affordable prices.
